REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and citizens of Middleton:

I submit my first report as Superintendent of Schools of Union No. 36. The following list indicates the administrative activities for the period from July 1, to December 31, 1961:

Teacher visits	339
Regular School Board Meetings	45
Special School Board Meetings	26

P.T.A. Meetings	8

Guidance

The objective of a guidance program cannot be satisfactorily achieved unless all teachers are conscious of those objectives and strive toward that end. The role of the classroom teacher in the guidance program is an indispensable one. In every subject there are common and unique possibilities for contributing to the objectives of the guidance program. Guidance should be an outcome of all teaching activities.

Cumulative Records

The guidance program is dependent upon an adequate knowledge of the individual. In our schools there is a cumulative record for each pupil. Guidance information is entered under the following headings:

1. Personal data
2. Family and community background
3. Scholastic record
4. Health record
5. Objective test results
6. Character ratings
7. School activities and interests
8. Entrance and withdrawal record

The objective is to construct a growing, permanent record of valid information which will accompany each child throughout his school life.

The cumulative record kept up to date furnishes information which will be invaluable in making pupil adjustments. Principals and teachers find its greatest value in determining status and growth in the child's general and specific area development, in planning new **programs** and grade placement.

The task facing the leaders of education is to so organize and administer our educational institutions that the best interest of every individual will be served and that this process will, at the same time, contribute to the fundamental quality of our culture and add strength to our national character. We must make sure that the maximum cultivation of the individual's intellectual, moral, artistic and spiritual capacity that makes of him a free person yields also the protection and perpetuation of those institutions that are essential to a free society.

Like so many other departments of our society and culture, our educational establishment at many points is comfortable and soft. At times we have been far too willing to entertain and to tolerate when we should have disciplined, directed, and inspired - inspired by great teaching, of the type that moves the mind to a love of knowledge and to an insatiable demand to possess and to create it, directed by wisdom that grasps the proper ends of learning and disciplined by that internal discipline whereby a moral person orders his life, determines the means appropriate to his ends, and achieves a proper integration of his intellect and affections.

The schools of Middleton are an investment in people and represent a significant part of our vast heritage which we Americans enjoy. One of the fundamental and most vital parts of our governmental structure is the guarantee of free, public and universal education locally administered. It is my sincere hope that the citizens of Middleton will continue their support of this created obligation.

Realizing the many challenges with which the American people are faced today, I would like to urge the citizens of Middleton to keep working hard to improve their school system, because I think that we all must realize more than ever before that the foundation of our democratic society is built upon the education of its children.

I feel that the year which has elapsed has been one of progress. Whatever gains have been made have been the result of the cooperation of members of the Schools Board, school personnel and parents. For this cooperation I wish to express sincere acknowledgement.

Respectfully submitted,

ALFRED W. THOMAS
Superintendent
